Quick Summary:

From then until now: I was born in Taipei, Taiwan and moved to Canada when I was two years old. From there, I moved to the U.S. when I was 7 and lived in the Bay Area (SF) for most of my life. I worked at a few different financial “start-up” companies and worked on my education. I live in Scottsdale, AZ right now and really enjoy the people I’ve met here. I especially love the nightlife all around Phoenix and how there are people here from all over the country and world!

During Work:

I enjoy talking about:	I don't like to talk about:	I care strongly about:
<ul style="list-style-type: none">- Projects that other people want to take on- Weekends and activities you enjoy outside of work- Anything funny or interesting that is PG 13 - NC17 rated- Anything historical or financial services related- Any news that you find interesting or funny	<ul style="list-style-type: none">- Anything political that really does not have to do with our work- Any MLM opportunity to make extra side hustle money- Negative opinions on other people in the office or outside of the office	<ul style="list-style-type: none">- Getting work accomplished- Go-Getter attitude that attempts to solve a problem first rather than surface up problems for “superiors” to solve or instruct- Directness, say it as how you see it, not as how you want me to hear it- Diligence, anything you take on, see it to the end- Stoic attitude, good or bad, we shall persevere!

Aspirations:

What I'd change:	What I'd like to preserve:	What makes me happy:
A culture of sales and marketing that has permeated financial services and replacing it instead with financial wellness and planning.	The human element of financial wellness, the therapeutical element of having a warm and caring individual understand your needs and wants	Knowing that I get to be a part of a team that is moving our industry forward in the right direction.
